It's smart to put what you save at Sears into another good buy...

THE NEW U.S. Savings Bonds

now paying 3¾% to maturity!

A good way to have the money for the BIG things in your life is to save for them with U. S. Savings Bonds. And now they're an even better buy, paying 3¾%, compounded semiannually, when held to maturity. New E Bonds mature in 7 years, 9 months, returning $4 for every $3 invested. H Bonds, which pay interest semiannually by Treasury check, mature in 10 years.

Every Series E Bond has an automatic 10-year extension privilege, with liberal interest. And when retirement time comes, you can exchange your E Bonds for H Bonds to receive regular income (while deferring payment of taxes on your accumulated interest)!

Tens of millions of Americans own E and H Savings Bonds worth $42.7 *billion*—and more are buying them every day.

Facts to Remember About Savings Bonds

• *You can get your money, with interest, any time you want it,* after the initial waiting period, cash them any time you wish. But Bonds are just like money in the bank . . . it pays to keep them.

• *Your money is guaranteed by the U. S. Government.* Bonds are an absolutely riskless investment. The Government promises you that the cash value of your Bonds will not drop—it can only grow.

• *Your money can't be lost or stolen.* The Treasury Department keeps a record of every U. S. Savings Bond. If your bonds are lost, stolen or destroyed, you get every cent back with *interest.* U. S. Savings Bonds may be purchased only by residents of the United States and American citizens temporarily residing abroad.

1. Fill out the application form carefully.
2. Make check or money order in full amount of purchase price payable to: TREASURER OF THE UNITED STATES. Do not send currency.
3. Place application form with check or money order in an envelope and address to:

Teen Bras

Teen Bra fitting facts

Young figures change so fast, be sure to measure before ordering. Pre-teen bras are for busts showing first signs of developing. Teen AA-cup is for very small busts, but with definite development. Teen cups A and B are slightly smaller than regular A and B cups.

1 **For Bra size**—Measure chest wall above bust, under arms.

2 **For Cup type**—Measure over fullest part of bust. If less than chest wall, order a pre-teen bra. If same or ½ in. larger, order a Teen AA-cup bra. If over ½ to 1-in. larger, order a Teen A-cup bra. If over 1 to 2-in. larger, order a Teen B-cup, or a regular B-cup.

[1] Youthful shaping for prettier lines. Elfin Cordtex® in cups for a gentle lift . . won't wash out—ever! Elastic inserts at front and at 3-way back hooks. White cotton. Dainty embroidery at upper-cups. Straps adjust. Petite cups are slightly smaller than Teen A and B-cups. Shpg. wt. ea. 3 oz.

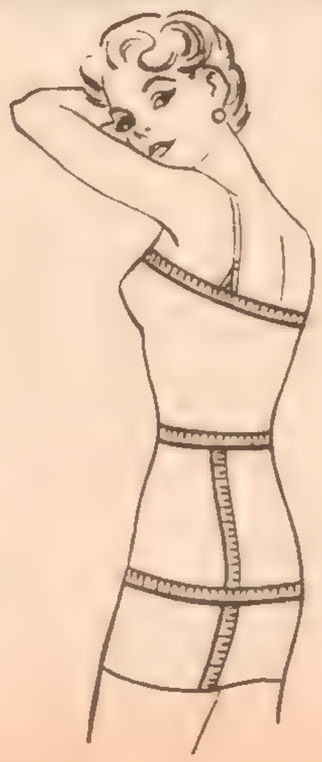
How to Measure for Foundations



Send these 4 measurements for proper fit: (measure over your present garment)

1. **Bust** (at upper chest) . . above fullest part of bust.
2. **Waist** . . at the smallest part
3. **Hips** . . at the fullest part
4. **Length** . . . Measure at side-back, from waist down to where you want garment to end.

The foundation size you order is your bust (upper chest) measurement . . (1). Cup type: for the lighter weight boneless-back foundations, the cup-type is measured as for bras (see page 204).

For the boned-back, less elastic foundations, cup-type is stated as Medium, Medium to Large or Large . . the range being about that of a Full B to a Full D-cup type.

For free advice write Marion Lamont, Personal Service Dept., Sears, Roebuck and Co. Include your measurements plus height and weight.

SEARS 75 YEARS DIAMOND JUBILEE

New! Figure flattery Slip

$5.47

Specially chosen as a Sears Jubilee Value

- ***Because*** it moves as you move. This is the fascinating difference in our new slip! You never feel the gentle stretch of its actionized lace—you only know it stays smoothly in place
- ***Because*** the secret is in the supple, stretchy 88% nylon, 12% spandex lace. Note how it outlines entire bodice, front and back—then divides center to beautifully mold your bustline
- ***Because*** nowhere else, at any price, will you find this shape-defining slip. Designed for Sears and exclusively ours

Our nylon tricot slip has seam-to-seam front shadow panel. Cut-out nylon lace splendorizes top, straight back, hemline.

Whipped Cream

DuPont's New 100% Dacron Sensation

We've tossed it carelessly into a suitcase, left it there days at a time—it pops out with nary a wrinkle! Wear it, travel in it, party in it, relax in it—wear it day in, day out—from morning to night—it's practically indestructible as far as wrinkling's concerned! The secret: 100% Dacron* polyester that really holds it's shape, machine washes like a dream, needs no ironing—saves you hours of clothes-care drudgery. BUT WAIT—THAT'S NOT ALL—this is a real luxury fabric—looks like expensive silk crepe, yet its weight is fractional—approach cooling and comfortable. For dresses, blouses, lingerie, sleepwear, too.

New nylon Safety Gate

Fits any door frame 24 to 36 inches wide

Modern turquoise and white gate looks more attractive in your home and there's less chance of injury to baby should he fall against it. Taut nylon netting stretches across vinyl-covered steel frames. Simply slide frames apart to fit door opening and then snap-close the safety lock to hold it securely in place. Fits snug by tension and the pressure it exerts on opening.

Door finish protected from marring by rubber tips on frame. White net is washable, printed plastic fabric wipes clean with a damp cloth. About 24 inches high.

79 A 7621L—Shipping weight 7 pounds.....$5.98

Safety Gates keep your children and pets from straying

Self-locking gate stays in place by tension and the pressure it exerts on sides of opening. No tools or mounting hardware needed—just fit into door frame and adjust to proper width. Fits any 23 to 37 in. door. Rubber cushions at contact points keep gate from marring door frame. Just pull to open. Hardwood construction, non-toxic finish. About 23 inches high.

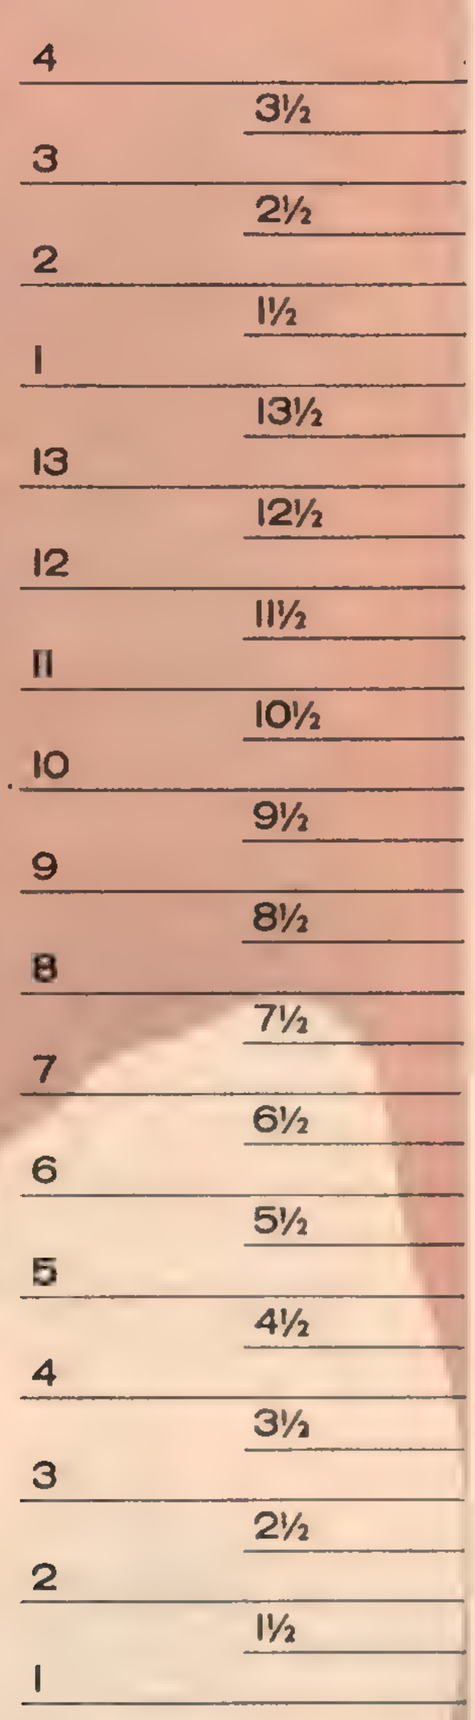
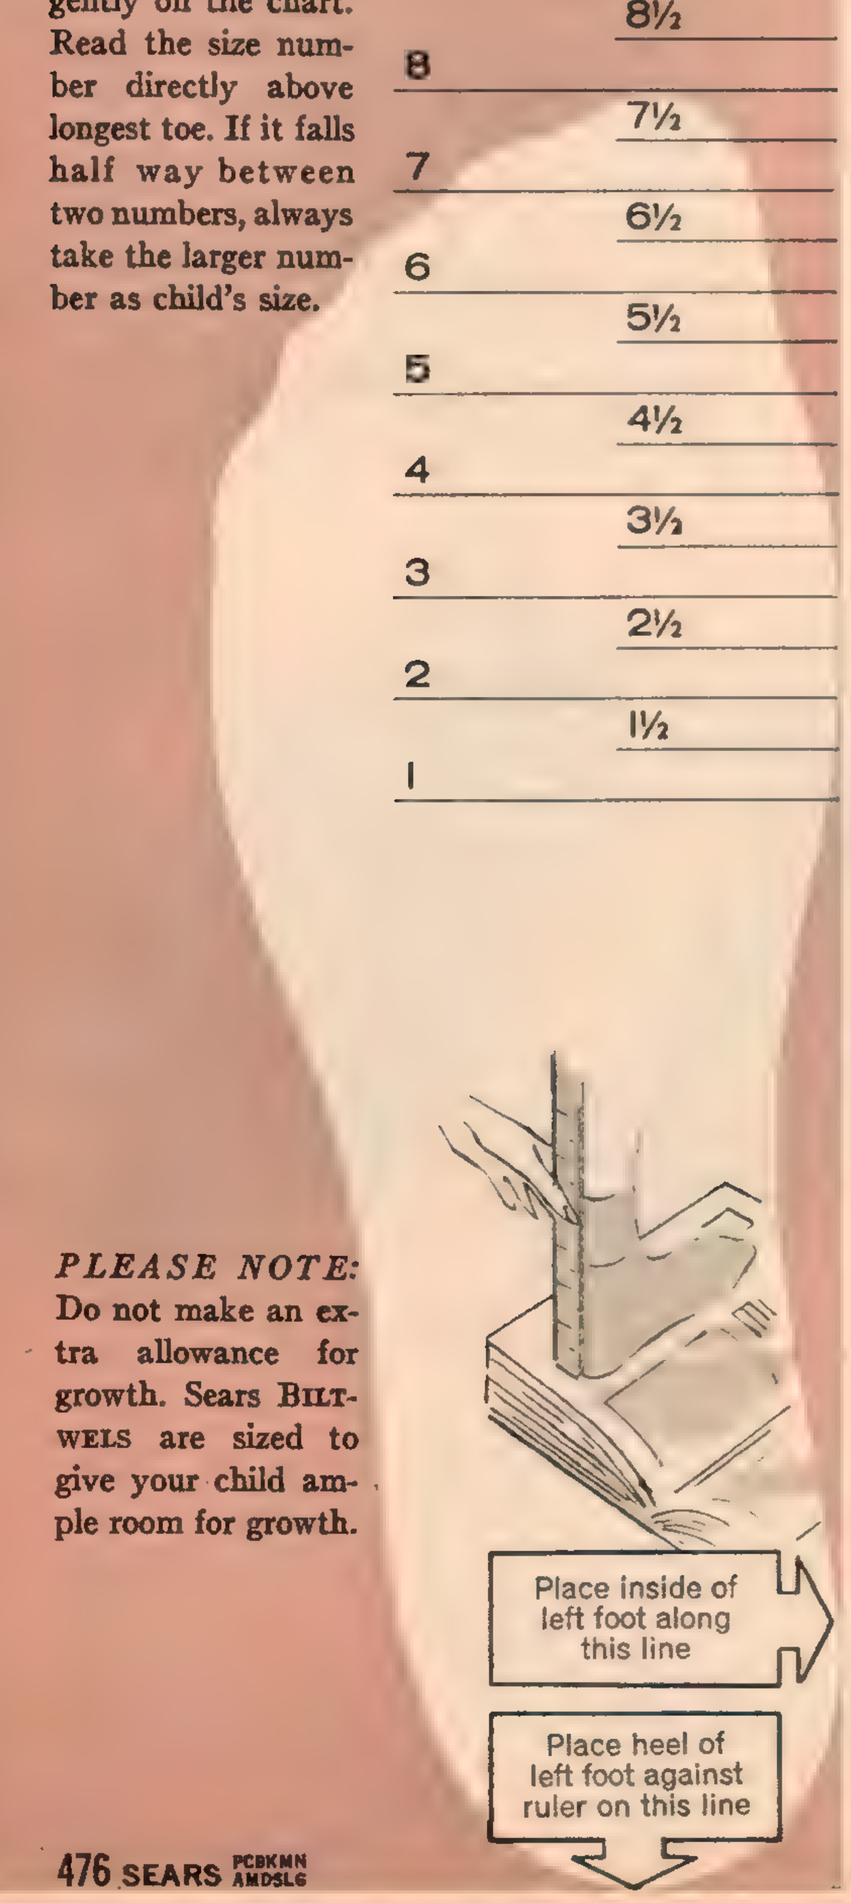
MEASURING INSTRUCTIONS

1. Place the chart on the floor. Have the child seated naturally . . . NOT STANDING.

2. Measure the *left* foot wearing sock or anklet without shoe. Place back of left heel against a ruler on the bottom line. Make sure that inside of the foot is against the side line, as shown below.

3. *For size number:* press child's toes gently on the chart. Read the size number directly above longest toe. If it falls half way between two numbers, always take the larger number as child's size.





PLEASE NOTE: Do not make an extra allowance for growth. Sears BILTWELS are sized to give your child ample room for growth.

Specially chosen as a Sears Jubilee Value

- ***Because*** you get a most-wanted fabric—Durene® combed cotton—4 ways better than ordinary cotton
- ***Because*** they're specially designed for active men . . springy rib knit underarm insert provides maximum flexibility
- ***Because*** extra-long shirttail and deep side vents assure you extra comfort, ease of movement and always look neat

We've taken last season's most popular golf shirt style, added smart trim to the collar, *and* cut the price! Durene cotton offers you . . (1) extra strength —2-ply mercerized yarns are stronger; (2) extra quality—smooth and even . . soft, permanent luster and clear colors; (3) extra service—outwears ordinary cotton; (4) extra comfort—it's more absorbent. Embroidered emblem applique on chest pocket. Tape-reinforced neck and shoulder seams. Hemmed bottom. Hand wash alone.

Please state size small (34–36-in. chest), medium (38–40-in. chest), large (42–44-in. chest), extra large (46–48-in. chest).

SEARS 75 YEARS DIAMOND JUBILEE

Handsome Straws and Felts
Now! For the first time

Proportioned for a more flattering look

Specially chosen as a Sears Jubilee Value

- ***Because*** the dimensions of the hat—the brim width, crown height and taper, and band width—vary to conform with your features and head size
- ***Because*** Sears' exclusive advantages make these the best values we know of . . give you the best fit you've ever had

Just state your correct hat size . . you will receive the correct proportion according to size

Small hat sizes are proportioned for FINE features, have a narrow brim, band, and low, tapered crown

Medium sizes proportioned for AVERAGE features . . wider brim, band, and a medium crown height and taper

Large sizes proportioned to go with LARGE features, with a wider brim, band, and a higher, tapered crown

Measure around largest part of head with tape, above brow ridges. Find correct size in chart. If between sizes order the larger.

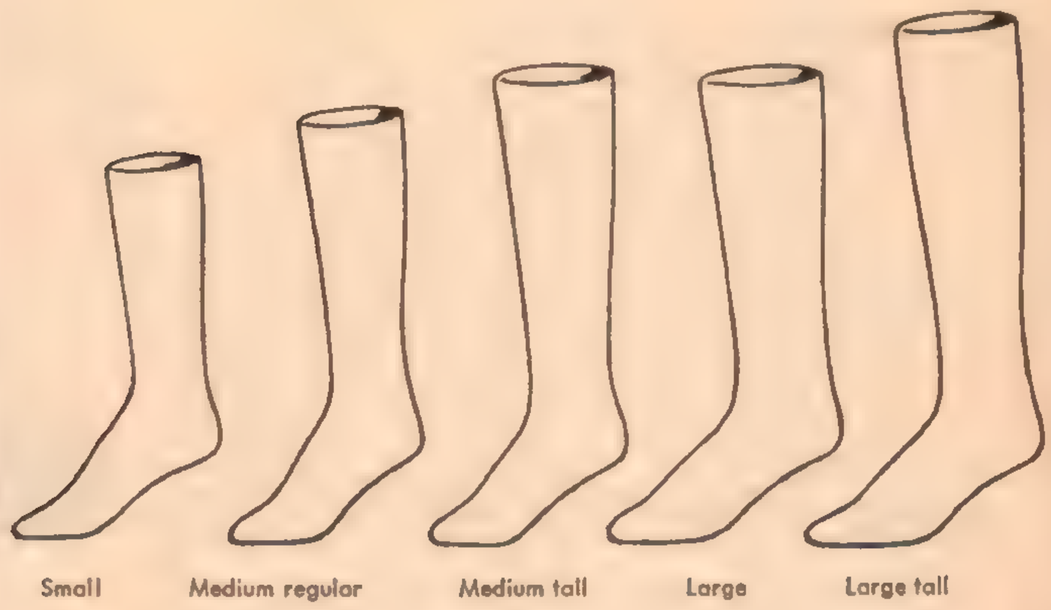
NOW! Proportioned Hose knit to fit your leg size too

Specially chosen as a Sears Jubilee Value

- ***Because*** of wonderfully comfortable allover fit—from calf to toe—you get with new proportioned hose. Instead of usual "average" size, we offer you five different combinations of foot size and length
- ***Because*** of outstanding elastic qualities of Vyrene® spandex fiber sock tops. Sears laboratory tests show they last four times as long as natural rubber. Keep hose neatly in place



Choice of Slack length or Full length

94c **3 pairs $2.76**

What a buy! You get two wonderful new features never before offered in Sears dress hosiery . . features that are designed to give you the ultimate in wearing comfort and dressy good looks. First of all these hose have been proportioned in five different sizes . . varying in leg length as well as foot size. This was done after exhaustive wear tests with men of all sizes from small to very large, to determine what size socks fit best, feel best, look best. Now you get a near perfect fit with these stretch nylon beauties . . styled to comfortably hug the contour of your leg as well as your foot.

The second big new feature is the Vyrene spandex top . . an amazing synthetic fiber with elastic qualities superior to that of natural rubber. Socks with Vyrene fiber tops and socks with natural rubber tops were subjected to identical, rigorous laboratory washing and aging tests . . the results showed that the natural rubber lost over four times more elasticity than the Vyrene tops. An amazing performance by Vyrene that means longer sock life.

These KENISAN socks have a durable purifying finish that fights odors, retards the growth of harmful foot bacteria, gives you wonderful sanitary freshness all day long. Finish lasts through washing after washing too! Hose retain shape, will not bunch or sag.

3x3 rib knit stretch four-ply luxury quality nylon. Flat knit sole. Your choice of full length or slack length. *State color* black, brown, charcoal gray. *State size.* See chart below for instructions.

Shave anywhere with Mister CRAFTSMAN Cordless

REG.U S.PAT.OFF.

- In your car
- At the office
- On a camping trip
- In plane, boat or train

You get a week of smooth shaves . . on one overnight charge **$14.99**

Now you can shave whenever and wherever you want. No electrical outlet handy . . who cares? You've got a week of comfortable shaving stored up in this Mister CRAFTSMAN Cordless. It doesn't have a cord and doesn't need it! One overnight charge gives 8 to 10 shaves depending on the toughness of your beard.

And what a shave you'll get! The extra-large rotary head has high-speed, self-sharpening blades that will cut your beard clean and quick . . won't pull or irritate your skin.

Pull-up trimmer, powered by the shaver's motor, completes the shave. This big feature is exclusive with the Mister CRAFTSMAN Shavers. See the trimmer's uses and advantages in the Shaver-Trimmer description below.

Made in Switzerland. To recharge, plug into any 110-120-volt, 60-cycle, AC outlet. Housing is handsome two-tone gray-and-charcoal. With leather zipper case, charging base and brush.

Shipping weight 1 pound 8 ounces.

Mister CRAFTSMAN Shaver-Trimmer

REG.U S.PAT.OFF.

$13.80

Here is the cord-type shaver that not only gives you a smooth shave, but has a trimmer that shapes sideburns, mustache, hairlines as straight and exact as a razor. You can look barber-neat every day of the year. High-speed rotary action, self-sharpening blades and extra-thin head foil combine to give you a cleaner shave.

It's easy to use . . trimmer starts cutting the moment you pull it up—stops when you push it down. Stores compactly out of the way when not used. And it's safe too . . you can't cut yourself even when removing unwanted hairs from nostrils and ears.

Same close, comfortable shaving action as the Mister CRAFTSMAN Cordless above. 110-120-volt, 60-cycle, AC. Housing is handsome two-tone gray-and-charcoal. Precision-made in Switzerland by skilled craftsmen. Leather zipper case, brush, cord (ring on plug easily holds entire cord—for fast and easy storage). Shipping weight 1 pound 8 ounces.

9 A 9249 ..... $13.80

Both of these Shavers feature . .

Pull-up trimmer for sideburns, mustaches, hairline blending. Cuts those stray hairs neatly, exactly

For the most convenient way to buy everyday needs, you will want to have a Sears Revolving

CHARGE ACCOUNT

No minimum purchase—not even a down payment required when you use this plan. Just like a regular Charge Account—no service charge—if you pay within thirty days. Or, if you wish, you can stretch your payments out over many months (small service charge).

Read here what a convenience this can be for you . . .

WHEN YOU JUST SAY "CHARGE IT" SHOPPING IS SO MUCH EASIER

You never need to figure delivery charges — we prepay them. Sears own people will figure postage, freight or delivery charges on your order — send your package off to you prepaid, and add the charges to your account.

You don't need to keep money on hand to pay C.O.D. charges. Because the entire amount has been charged, you don't need to pay our driver. Leave home for the day if you wish; a note will tell the Sears driver to leave your package at a neighbor's.

Picking up your order is easier. No delay or money to pay. Your identification card shows you are a "charge customer."

Any Sears Store or office nationwide will recognize your credit standing. Wherever you are in all these United States your credit is good — on vacation, on business trips, in any place there is a Sears unit. Just show your revolving CHARGE ACCOUNT identification. Sears will be glad to take your "Charge" order wherever you are!

We send you a statement of your account every month. Makes bookkeeping so much easier for you — a complete record of your purchases is always available.

You can even pay for your purchases over many months. Pay your charge each month within 30 days of our billing date with no service charge if you wish — or, if you prefer, stretch your payments out over months. If you choose to do this, your monthly payments will go up or down each month, depending on your outstanding balance. (See schedule of monthly payments on following page.) A small service charge will be added each month.

You can open your account now—and order later. This new Sears plan is so convenient, so easy to use you may wish to open your account right now—and start using it later. There is no need to send an order when you open your account . . . open it now—we will send you your identification. You can start using it whenever you wish.

It's easy to start your account — here's how — Simply fill in the application and sign the agreement on the other side of this page—send it to Sears. Or you may open an account by telephone —just by calling the most convenient Sears unit. (See blue section starting with page 618 for telephone numbers.) Tell our phone clerk you want to open a revolving CHARGE ACCOUNT, she will take your application and your order at the same time, if you wish. Or visit any Sears store —they will gladly answer any questions you may have and fill out your application for you.

AGREEMENT
FOR SEARS REVOLVING
CHARGE ACCOUNT

SEARS, ROEBUCK AND CO., CHICAGO 7, ILL.

In consideration of your selling merchandise to me on Sears Revolving CHARGE ACCOUNT, I agree to the following regarding all purchases made by me or on my Sears Revolving CHARGE ACCOUNT Identification:

1. I have the privilege of a 30-day charge account, in which case I will pay the full amount for all merchandise purchased within 30 days from the date of each billing statement.
2. If I do not pay the full amount for all merchandise purchased within 30 days from the date of each billing statement, the following terms shall be in effect:
   (A) I will pay the time sale price for each item purchased consisting of:
   (1) The cash sale price, and
   (2) An amount of time price differential computed at 1½% of the balance at the beginning of each month, until the full amount of all purchases and time price differential thereon are paid in full.
   (B) I will pay for the merchandise purchased in monthly installments which shall be computed according to the following schedule:

If the unpaid balance is:	The scheduled monthly payment will be:
$ .01–$ 10.00	BALANCE
10.01– 100.00	$10.00
100.01– 150.00	15.00
150.01– 200.00	20.00
200.01– 250.00	25.00
250.01– 300.00	30.00
300.01– 350.00	35.00
Over $350.00	1/10 of account balance

   I will pay each monthly installment computed according to the schedule at left upon the receipt of each statement. If I fail to pay any installment in full when due, at your option the full balance shall become immediately due.
   (C) You are to send me a statement each month which will show the unpaid balance for merchandise purchased, your time price differential computed on the balance at the beginning of the month, and the amount of monthly installment coming due.
   (D) I have the right to pay in advance.

CREDIT TERMS TAILORED TO FIT YOUR BUDGET AND SO EASY TO USE

It's Easy to open an account

Simply answer the questions on the back of the order blank in this book, have the head of the household sign it, and mail it to Sears. Or, if you prefer, inquire at your nearest Sears Catalog Sales Office or Retail Catalog Sales Department. Just be sure your order totals $20 or more. For down payment, see the plans described below and on page 588.

If you wish to open a Sears Revolving CHARGE ACCOUNT, see page 585 for information. Special application form on facing page.

It's Easy to find plans to fit your needs

There are Regular Easy Terms, that apply to everything Sears sells. Then, there are special easier terms for Home Furnishings and Appliances, Home Modernization and many other items. You'll find them all described below and on page 588.

You can use any or all of these plans—but whichever you use, don't forget to open a Sears Revolving CHARGE ACCOUNT for your everyday needs. See page 585 for all information. Special application form on facing page.

It's Easy to "add-on" to your account

There's no down payment and in many instances no increase in monthly payments when you "add-on" orders to your open account. "Add-on" orders must total $5 or more (no minimum on Revolving CHARGE ACCOUNT). Just write on your order "Add to my account." Fill in your Account number, sign the agreement on the order blank, and mail it to Sears. Or phone or visit your Catalog Sales Office or Retail Catalog Sales Department and give your Account number.

On orders shipped by Parcel Post, freight or express, shipping charges are added to your Sears Revolving Charge or Easy Payment Account. No need to figure transportation. Charges for service or installation of Sears merchandise may also be added to your credit account.

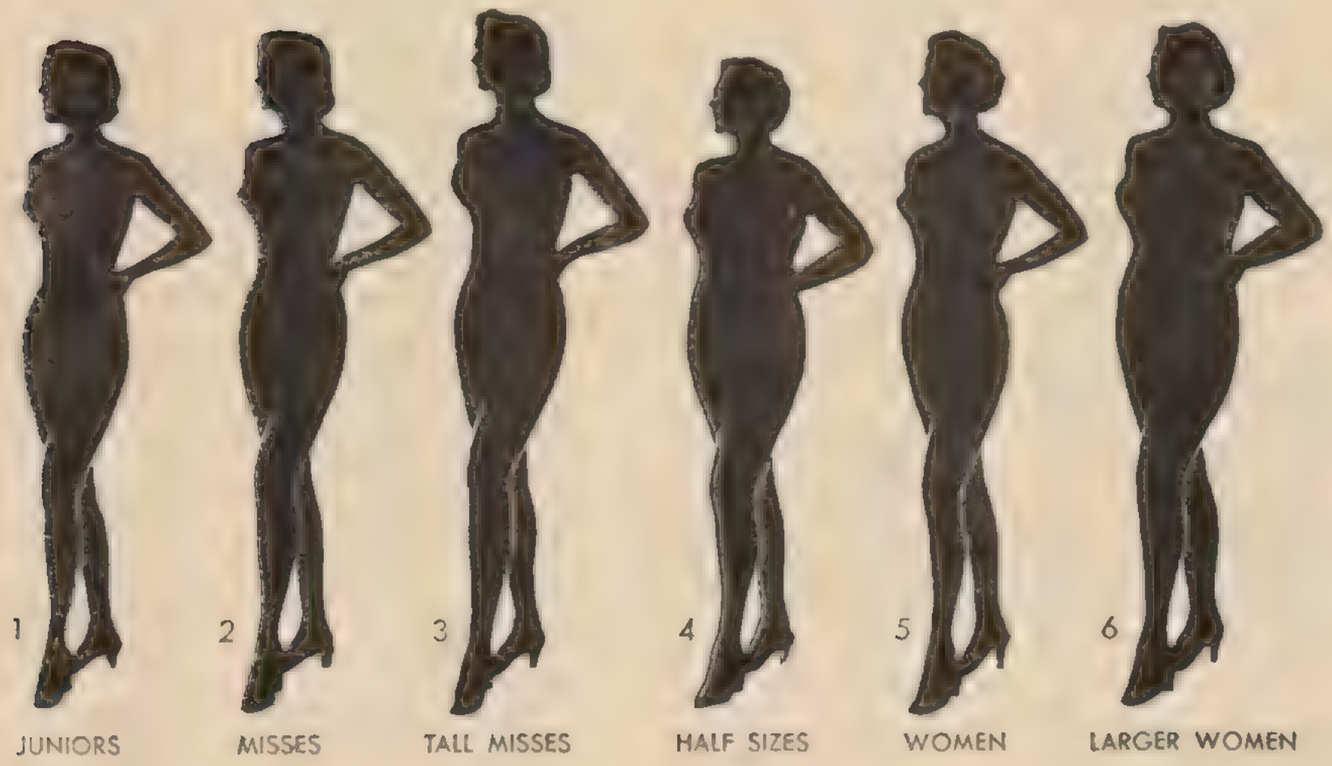
IF YOU WANT to measure correctly for



Fashions have lovely lines when you wear the right size

Here at left we show 6 figure types. One of them is yours. Do you *really know* which one? Do you really know your size? You can be sure if you check with the corresponding charts below. Please use your tape measure to be sure. Once you have verified the size you should wear, order that same size in all Sears apparel, regardless of price. Sears fashions fit the majority of women beautifully because they are based on a study of scientific body measurements. Just make sure that the size you wear is offered in the particular style you are considering. As always, Satisfaction is Guaranteed.

SELECT YOUR FIGURE TYPE . . measurement charts will tell you what size to order to get a good fit. If your measurements fall between 2 sizes, order coats and toppers in the smaller size; order all other apparel in the larger size.

Good Fit for Every Age in Fashions for the Young

Every size on this page represents *body measurements . . not age* of child. From Infants' size 1 to Young Misses' size 16, Sears clothing is made to comply with scientifically correct standards of measurement. Until full size and development is reached, a child's measurements change constantly and rapidly. No one garment needs all measurements; refer to the page from which you are ordering for a condensed measurement chart on a particular item. If measurements fall between two sizes, order larger size. To get the right fit . . . MEASURE AND BE SURE.

Measure and Check Charts

HEIGHT: Have child remove shoes and stand naturally against wall. Make mark level with top of head. Measure from this point to floor. Recheck height EACH time you order.

CHEST: Measure around body at fullest part of chest or bust. Hold tape snugly, well up over shoulder blades. Be sure tape does not slide down in back. Stand naturally.

WAIST: Measure around smallest part of body of natural waistline. (Remove belt when measuring.) Hold tape firm but not tight. Recheck measurements every time you order.

HIPS: Have girl stand naturally with knees together. Measure in straight line around body at fullest part of hips (about 7 inches below waist). Hold tape firm but not tight.

IF YOU WANT to measure correctly for boys' or men's clothing...

HEIGHT—Because it is difficult to measure yourself, have someone else take your measurements. Stand against wall in stocking feet to insure correct height measurement. Height is important because it helps select the most accurate size for a more flattering fit.

CHEST—Measure around chest well up under arms and over tips of shoulder blades. For knit shirts, pajamas and robes, measure chest over undershirt. For sport coats and sweaters measure chest over shirt. For jackets and other outerwear measure chest over clothing usually worn underneath.

WAIST—For boys' sizes measure waist over underwear at smallest part. For men's sizes measure waistline (above hip bone) over trousers with belt off. Measurement should be taken carefully because it controls amount of room in the seat and crotch. Hold tape snug, not tight.

INSEAM—Stand in a relaxed position with legs slightly spread apart. Pull up trousers to where you like to wear them. Measure along inseam from crotch seam to length desired. Or, take a pair of good-fitting trousers and lay them flat. Measure inseam from crotch seam to bottom of cuff.

IF YOU WANT a correct measurement for men's dress and sport shirts...

Where specific sleeve lengths are requested, bend elbow and measure number inches from middle of back of neck, across shoulder, over elbow to wrist. Also measure number of inches around neck.

Where specific sleeve lengths are *not* requested, measure around the neck. Number of inches indicates the size you should order. Make sure you hold tape snug, but not tight to insure correct garment size.

If measurements fall between sizes, order the larger size. Be sure the garment you want comes in the size you require . . . not all styles are offered in every size.

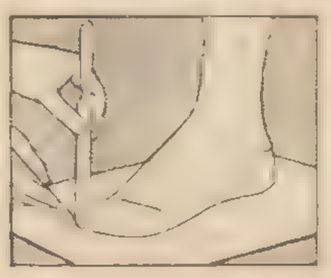
IF YOU WANT a proper shoe fit... order this way...

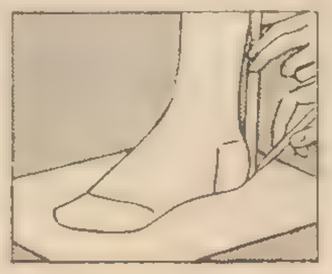
Use Sears scientific 4-point measuring plan described below, or, if you are sure of your shoe size (length and width) you may send us your size. When ordering by size, check catalog to be sure shoes come in your size. *For children (to size 4) use the size chart in the children's shoe section every time you order.*

Here is Sears 4-point measuring system: Use a blank sheet of paper large enough to fit under your foot, an ordinary kitchen knife, and a pencil. Sit on a chair and let your left foot rest naturally on the paper as illustrated at left. Do not stand as this will spread your foot and give incorrect measurement. Then mark paper as shown below.

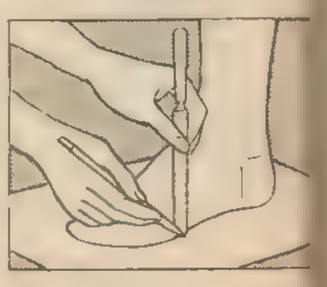


1 **Have someone hold knife straight up and down** at the tip of your longest toe and make a mark with the pencil along the edge of the point of the knife. Mark this line "1."

2 **Have knife blade moved to the joint of the inside of the foot** (widest part); again make a mark with the pencil along the outside edge of the knife. Mark this line "2."



3 **Next, have the knife blade placed at back of the heel,** and make another mark with the pencil along the outside edge of the knife. This is line "3." Mark it accordingly.



4 **And last, have knife blade placed at widest part of the outside of your foot.** This gives exact foot measurement, so do not send outline of your foot. Mark this line "4."

You will now have a piece of paper with four marks on it as shown at left. Do not enclose a complete outline of your foot . . . these four marks give us the exact measurement of your foot. Enclose this piece of paper with your order blank. If ordering more than one pair send diagram for each.

NOW! Learn Your Correct Shoe Size by Telephone

To Learn Your Size: measure the distance in inches between points 1 and 3. This is the length. Then measure the distance between points 2 and 4. This is the width. Give these figures to the Catalog Sales Office order clerk who will tell you your correct size. Check the catalog to be sure that shoes come in that size.

IF YOU WANT expert repair service..

Service available everywhere

Your Sears service man is part of an 8500-man coast-to-coast service team. No matter where you live in Continental United States, a Sears trained repair specialist is nearby. Sears has a service headquarters in every city where we have a Mail Order House, Retail Store or Catalog Sales Office. In communities distant from these locations, Sears has made arrangements with local contractors for competent servicing.

Sears Repair Centers

Sears repair centers will rebuild electric motors used on any merchandise sold by Sears units and will repair all types of merchandise sold by Sears —all at a reasonable cost to you. Laundry equipment, electronic, refrigeration, plumbing, heating, cooking equipment, or any bulky item can be repaired in the home. Before sending electric motors or any other merchandise to us for repair, write us giving the kind of appliance and any other helpful information. We will quote price and give you instructions on what to send, how and where to ship. If because of age, condition or any reason the repair charge appears uneconomical, we will write you before repairing the merchandise. Write the Personal Service Dept. of your nearest Mail Order House, or stop in or phone your Catalog Sales Office or Retail Store.

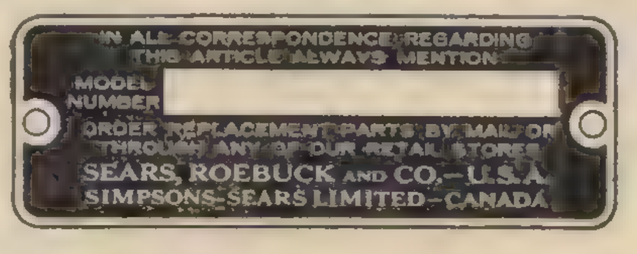
How to get parts by mail

Before you order any repair parts, check this catalog. Many replacement parts are listed on the pages where the original equipment is sold. (See index for page references on equipment you want to repair.)

Prompt service on shipments of repair parts by mail depends on the completeness of the information you give us. With each major piece of mechanical merchandise sold, we include a repair parts list. Keep this list and refer to it when in need of repairs. All repair parts lists give model numbers and parts numbers. *If you're in a special hurry, send your order by paid telegram, giving us complete information, and we will rush the parts to you.*

When writing for repair parts, make sure you send us:

1. The exact PART NUMBER and NAME of the part you want.
2. The MODEL NUMBER and KIND of machine or item for which the part is being ordered.



To find the model number of your merchandise, look for the name plate illustrated below at left which is carried on most of Sears merchandise. If the plate doesn't appear on the merchandise, you'll find the model number stamped or stenciled somewhere on the item.

If the item has no plate, and you can't find a marking, send us the following:

1. A complete description of the machine or item referred to, including the year you purchased it.
2. Exact NAME and NUMBER of part wanted. If no number appears on the part, send us a pencil outline, or the old part itself. Tell us the location of part on equipment.

How to get repair parts

1. The Customer Service Department for each of our eleven mail order houses maintains stocks of replacements for parts which may wear out through natural use. You can pick these up in person or order by mail. Most parts are shipped the same day we receive your order.
2. Sears Retail Stores carry most repair parts for immediate delivery.
3. Complete lists of repair parts for all Sears mechanical equipment, old and new, are available in our Catalog Sales Offices and Retail Stores. Salespeople will help you get the correct part.

IF YOU WANT merchandise sent overseas.. or to order from overseas...

Shop from any Sears Catalog. Select clothing for all the family, home furnishings, hardware, stationery, luggage and other merchandise. Shipments of certain items to certain countries may vary, but in any case we cannot export live animals or poultry, guns or ammunition, drugs or nursery stock. Our sales people will gladly give you information about restricted shipments.

Order by Mail or in Person. Make your Sears catalog selections at home, or at a Sears unit near you. Then request a free estimate of shipping costs. On receipt of this estimate you can determine the complete cost of your export shipment. Credit arrangements may also be made at the time you place your order.

Sears Handles Export Details. Our Export Department is devoted exclusively to overseas orders . . has expert knowledge of packing . . crating . . routing . . insurance . . electrical voltage and cycles in most foreign cities. Complete documentation and all details are handled for you at a minimum cost. One note of caution . . if there is any duty due on purchases it must be paid by person to whom merchandise is shipped.

Sears Ships to Individuals and Groups in dozens of countries in Europe, Latin America, Near East, Africa and Asia; for example: U.S. Government employes stationed overseas, members of the armed forces, employees of American companies in foreign residence, missionaries and students. Contact any Sears Catalog Sales Office, Mail Order House or Catalog Sales Department of Sears Retail Store for additional information.

Allow Time for Overseas Shipments. We suggest that you allow plenty of time for overseas shipments; remember that it may take from 30 to 60 days for your order to reach certain foreign countries after it is approved and accepted for shipment.

Ordering from Overseas. Sears has catalogs that can be used in over 100 countries. These catalogs contain the same merchandise—at the same prices—as our regular catalogs. In addition, they contain special ordering information to make overseas shopping easy. If any of your friends or relatives in a foreign country wants to buy from Sears catalogs, write in any language to Sears Personal Service Department at these mail order houses: *Sears at Boston, Mass.* for Newfoundland, Labrador and U.S. military personnel only served by APO numbers 677, 862, 863, 864, 865 and FPO 103. *Sears at Seattle, Wash.* for Alaska and APO and FPO addresses in care of Postmaster, Seattle, Wash. *Sears at Los Angeles, Calif.* for Guam; American Samoa; Wake; Midway; Canton, and Enderbury Island; Hawaii; Carolina, Marianna, Marshall Islands and all APOs and FPOs c/o Postmaster, San Francisco. *Sears at Philadelphia, Pa.* for Central America, Caribbean Islands, South America, Europe, Asia Minor, Africa, and all other countries not listed for Boston, Seattle or Los Angeles.

IF YOU WANT TO KNOW ABOUT FABRICS

Man-made fibers used in Sears fabrics:

Each year brings many new improvements in fibers or fabrics; some are new fibers, while others are modified, treated, or combined in developing better clothing and home furnishings for your enjoyment and greater service.

To better understand the quality and value of the man-made fibers now employed, the generic or common name of such fibers will be shown on the label affixed to the goods you buy and will also appear in the advertising of such goods.

Following is a list of generic names in common usage, with a brief outline of their general characteristics:

Acetate—Supple, soft texture; gives desirable draping qualities to fabrics such as taffeta. Sheds soft wrinkles. Moth ,mildew resistant. Use care in ironing. Examples: Chromspun acetate, Celaperm acetate and Chromfast acetate.

Triacetate—Excellent texture, washes well, drips dry, practically free from pilling. Fine draping qualities. Good resistance to wrinkles. Higher ironing temperature than acetate. Example: Arnel triacetate.

Acrylic—Crease and wrinkle resistant, absorbs little water, launders easily, dries quickly. Excellent shape retention, gives long-lasting pleats. If ironed, use low heat. Resists sunlight, moths and mildew. Examples: Orlon acrylic, Acrilan acrylic.

Glass—Fibers are exceptionally strong. Won't rot, shrink. Easy to launder, fast drying; requires no ironing, resists sunlight and fire. Example: Fiberglas glass.

Metallic—Fiber composed of metal, plastic-coated metal, metal-coated plastic, or a core completely covered by metal. Available in a wide range of glittering colors. Examples: Metlon metallic, Lurex metallic.

Modacrylic—Resilient, shape retaining; flame, moth and mildew resistant. Launders easily, dries quickly. Use press cloth and lowest heat if ironing is necessary. Examples: Dynel modacrylic, Verel modacrylic.

Nylon—Great strength and high abrasion resistance. Lightweight, absorbs little moisture, quick drying, easy to launder. Moth and mildew resistant. If ironed, use low heat. Example: Nylenka nylon.

Polyester—Excellent resilience and rapid recovery from wrinkles. Extremely durable. Does not absorb water. Launders easily, dries quickly. If ironed, use low heat. Examples: Dacron polyester, Kodel polyester.

Rayon—First man-made fiber to be used in great quantity. Good strength, good washing and ironing characteristics. Examples: Bemberg rayon, Celanese rayon, Cupioni rayon.

Spandex—Elastic, rubber-like fiber. Examples: Vyrene spandex, Lycra spandex.

a wise buyer knows what these fabric terms mean:

WASHABILITY

The following terms are used in our catalog to describe the colorfastness of our fabrics and garments that may be washed:

Washfast—Excellent colorfastness. May be washed by machine with hot water and any good laundry soap or synthetic detergent.

Washable—Moderate colorfastness. May be washed by machine with warm water and any good, mild soap or synthetic detergent.

Washable Separately, Wash Separately—Moderate colorfastness. May stain other fabrics when washed together. Remove contrasting trim. Quick washing in warm water and mild soap and rapid drying minimizes staining.

Hand Washable or Wash with Care—Fair colorfastness. Use lukewarm water and mild soap or synthetic detergent.

Hand Washable Separately—Fair colorfastness. May stain other fabrics washed at same time. Remove contrasting trim. Quick washing in lukewarm water, mild soap and rapid drying minimizes staining.

FABRIC SHRINKAGE

Many fabrics shrink (or stretch) some in washing. The following paragraphs explain what shrinkage may be expected in laundering Sears merchandise:

Sanforized—Fabrics and garments labeled "Sanforized" will not shrink more than 1%.

Pre-shrunk—Will not shrink more than 3% unless otherwise stated, except on corset fabrics which will not exceed 5%.

Man-Made Fibers—Fabrics made of the new synthetic fibers, such as acrylic, polyester, modacrylic, glass and nylon absorb very little water. When properly finished, fabrics made exclusively of or in major part of these fibers have little or no shrinkage.

Other Fabrics—Except as described above, shrinkage may vary as follows:

1. Bleached, printed, plain colored woven cotton, rayon and acetate fabrics, as percale, broadcloth and printed rayons, average shrinkage will not exceed 5%.
2. Yarn dyed woven cottons, knitted cottons and rayons, napped, braided and sheer fabrics will not shrink more than 10%, unless otherwise stated.

WATERPROOF

Fabrics and garments through which neither air nor water penetrate. Clothing described as wholly or 100% waterproof also has sealed seams.

WATER-RESISTANT

Fabrics that resist penetration of water but are porous to air. (These fabrics are said to "breathe".)

SUN-RESISTANCE

We use the following terms in our catalogs to indicate the degree of sunlight which our fabrics will withstand:

Sunfast—Where "Sunfast" has been used to describe fabrics, it means that dyes have a high resistance to conditions of normal use. Their color should not alter noticeably during the normal life of the fabrics.

Sun Resistant—Where "Sun Resistant" is used to describe fabrics, such as draperies, it means that dyes have good resistance to conditions of normal use. Colors may vary slightly during the normal life of the fabrics.

Vat Dyed Fabrics represent the best obtainable colorfastness to laundering, household bleach, sunlight and dry cleaning.

PERMA-SMOOTH

Sears trademark for our best wash and wear merchandise—quickly drip or tumble dry—resist wrinkles and creases—need only touch-up ironing. These garments and fabrics won't shrink out of fit.
